-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1626

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 to 3, drawn to a process for the preparation of aromatic azo compounds, classified in class 534, subclass 581.
- II. Claims 4 to 13, drawn to a process for the preparation of 3,3'-azo-bis(6-hydroxybenzoic acid) or a salt or derivative thereof, classified in class 534, subclass 660.
- III. Claims 14 and 15, drawn to 3,3'-azo-bis(6-hydroxybenzoic acid) or a salt or derivative thereof, classified in class 534, subclass 660.
- IV. Claims 16 to 18, drawn to a pharmaceutical composition comprising 3,3'-azo-bis(6-hydroxybenzoic acid) or a salt or derivative thereof and a method of treating inflammatory disease with 3,3'-azo-bis(6-hydroxybenzoic acid) or a salt or derivative thereof, classified in class 514, subclass 150.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are patentably distinct from one another because they are of different scope. The process of

Art Unit: 1626

Group I can prepare azo compounds other than that prepared by the process of Group II.

Inventions II and III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process such as the process disclosed in U.S. Patent 4,528,367.

Inventions III and IV are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can be used in a materially different process of using that product such as in the dyeing of textile materials.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by

Art Unit: 1626

their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for one of the groups is not required for the other groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fiona T. Powers whose telephone number is 571-272-0702. The examiner can normally be reached on Monday - Friday 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph K. McKane can be
